

Lamp & Fixture Ordering System

EDSS offers a custom user-friendly **Lamp and Fixture Ordering System (LFOS)**, an online ordering tool for lighting product that allows store managers to obtain product relevant only to their specific store and easily identify the correct replacement lamps.

The Lamp and Fixture Ordering System (LFOS) reduces reactive ordering to under 1% of total orders per year, saving thousands of dollars. This easy-to-use system provides a clean interface with efficient navigation highlighting only the ordering options applicable to that location—reducing ordering errors while saving you time and money.

The EDSS LFOS Advantage:

☑ 24-hour Ordering

The LFOS offers online ordering 24 hours a day, 7 days a week.

☑ Process and Ship Orders Faster

Now you can navigate, select product, view past orders, confirm and submit your order in a few simple steps.

☑ Reduced Reactive Orders

The easy-to-use system only allows the user to order product relevant to their store.

☑ Specification Management

Ensures all lighting matches and performs universally to keep the focus on your products.

☑ Centralized Order and Spend Tracking

The LFOS can provide you with real-time data tracking previous orders and monthly spend through our custom tracking system.

☑ Dedicated Support

EDSS provides a dedicated support line to assist with your product selection, tech support, or ordering concerns.
