## Why EDSS

Energy Design Service Systems (EDSS) is a full service lighting designer, distributor and manufacturer serving clients across the nation. With extensive experience in lighting equipment and systems, EDSS creates unique, cost-effective, and energy efficient lighting solutions. Our goal is to enhance the look and continuity of your facilities nationwide, all while saving you time and money.

Unlike other organizations, we don't just represent a single manufacturer or product. Instead, our vast knowledge of lighting allows us to provide tailored solutions for our clients by drawing from a variety of manufacturers to find the best lighting system. In addition, we will also custom design LED commercial products to solve unique lighting challenges. Our diverse resources and custom designs allow us to create the **best** possible lighting for our clients.

## The EDSS Value

Creating the ideal lighting environment will transform the way you do business. Our goal is to provide you the most value through lighting design focusing on functionality.

- **Value Engineering**

We evaluate existing lighting plans and create innovative yet practical lighting solutions that will enhance the facilities.

- **Design**

We incorporate cost effective products that improve energy efficiency and reduce lighting costs. We also make your design vision come to life.

## Project Expertise

- **Automotive Dealerships**

Our expertise encompasses internal showroom and external site-lighting, well as lighting for service areas.

- **Retail Stores**

Putting your products in the right energy-efficient light can make all the difference. Well-lit rooms and aisles will help you highlight your product and capitalize business through the power of lighting by working with EDSS.

- **Restaurants**

From soft-lit candelabras to funky fixtures, we set the mood in a variety of restaurants establishments, designing custom fixtures that create original dining experiences.

- **Stadiums & Theaters**

We bring stadiums and theaters to life with spotlights, stage lights, marquee lights and more. Our innovative designs enhance the spacial fluidity, while also minimizing maintenance.

- **Hospitality**

We illuminate lobbies for safety and appeal, while adding a depth and warmth to the rooms to make your guests feel at home.

- **Academic Institutions**

We work campus-wide to produce warmly lit classrooms, and improve safety with well-lit walkways and parking lots.

## Be the Brightest Among Your Competitors

Though it is often overlooked, lighting is an integral part of every successful business. It creates atmosphere and enhances aesthetics. It highlights critical products and improves visibility. Well-designed lighting even increases worker satisfaction and productivity. That's why it is essential to work with an expert lighting designer on your building plans or current facility.

As a premier design company within the lighting industry, we have more than 30 years experience and provide turnkey service with a warranty that includes labor and lamps for both large-scale and single task lighting projects. We collaborate with architects, interior designers, builders, and owners alike to tailor custom lighting designs to our clients' needs.

### Why LED

- **Improved Aesthetics :** LEDs provide a brighter, cleaner look that allows you to highlight your product.
- **Energy Efficient Savings :** LED often offers an average lighting and HVAC savings of 60% over current upgraded designs and an 80% energy savings over standard retail lighting.
- **Maintenance-Free Lighting :** The LED design offers a maintenance-free lighting solution with an average product life of 7+years!
- **Improved Lamp Ordering and Fulfillment :** EDSS offers a user-friendly lamp and fixture ordering system, allowing store managers to obtain product relevant to their specific store and identify the correct replacement lamps quickly and easily.

### ENERGY STAR Partner

As an Energy Star Partner, EDSS offers assistance in ENERGY STAR Certification. ENERGY STAR is a cost-effective investment; it makes your project affordable, comfortable, and durable.

- ENERGY STAR is a government-backed label that enhances asset value.
- ENERGY STAR is an essential requirement for the LEED Building Rating System, which is becoming the standard in the commercial building world.
- Energy costs represent 30% of a typical building's annual budget; so cut the single largest operating cost by getting ENERGY STAR certified **today!**
